Springer International

The journal **INTENSIVE CARE MEDICINE** provides a medium for the communication and exchange of current work and ideas in this field. It is intended for all involved in intensive medical care, physicians, anaesthetists, surgeons, paediatricians, and all concerned with the preclinical subjects and medical sciences basic to these disciplines.

It publishes

1. **Original papers** reporting progress and results in all areas of intensive care medicine and its related fields.
2. **Review articles** reflecting the present state of knowledge in special areas or summarizing limited themes in which discussion has led to clearly defined conclusions.
3. **Educational articles** giving information on the progress of a topic of particular interest.
4. Discussion on **technology, methods, new apparatus and modifications of standard techniques.**
5. **Case reports** of uncommon and interesting disorders.
6. **Correspondence** concerning matters of topical interest or relating to published material.
7. **Book reviews**
8. **Reports of meetings**
9. **Announcements**
